SALT LAKERS HOLDING RICH GOLD PROPERTY

Harveys Have Good Showing on Claims Held by Them in Camp of National, Nevada,

The gold camp of National, some 75 miles due north of Winnemucca, Nev., on the Southern Pacific rallroad, has been giving a good account of itself during the past 12 months, and some of the neighboring mining districts have been coming gradually to the front One of the promising new camps is near the Harvey ranch, a few miles due south of National. Here J. C. and O. W. Harvey of Salt Lake own a group of five promising claims. Mr. Harvey, Sr., is a veteran miner. Some years ago he was prospecting north of Winnemucca and discovered some very rich float at the foot of a hill, and it

one place he has a pay streak of five one place he has a pay streak of five feet, running well in gold, with a little silver. At a depth of 40 feet, he is getting out considerable ore that runs close to \$90 in gold and about \$2,80 in silver. Some picked samples have assayed as high as \$1,120 to the ton. Free gold can be seen in much of the best rock. The Winnemucca-National wagon road crosses near New Goldfield, over which an auto line is runduring the summer time.

STOCKS CONTINUE STEADY.

Selling Is Slow With Prices Slightly

Selling Is Slow With Prices Slightly
Changed on Local Exchange.
Prices were fairly strong on the local
exchange today, although the volume of
business was very weak. Some of the
favorites showed a tendency to move,
but as a rule the market was quiet.
Colorado was slightly off as compared
with yesterday, and some of the stock
sold as low as 75 cents. The best price
obtained was 76 cents. Only a small
number of shares were disposed of.
Cedar Talisman showed considerable
activity and during the regular session
2,700 shares were disposed of. The prices

2,700 shares were disposed of. The prices ranged from 4½ cents to 5 cents, Black Jack commanded a price of 11 cents. Iron Blossom remained unchanged and sold at 71 and 72 cents. Mason Valley was considerable; stronger t as considerably stronger today and old at \$2.071/2 and \$2.10. Prince Consolihas ever been and sold at 94 and

OBJECTS TO DISSOLUTION.

Edward McCarrick filed an objection Tuesday in the Third district court to the dissolution of the Hero Nevada Mines company. The company was taken over by the Seven Trough Monarch company. In his petition he alleges that the officers of the company failed to send out notices of the stock holders' meeting and that the action taken by them was illegal and void. McCarrick says that he is a stockholder and that he filed an action against the company some time ago which has not been determined. If the company is dissolved, he fears that it will prejudice his cause of action. According to the petition filed, the stockholders met on Nov. 11, 1909 and decided to disincorporate the company. cents.

On the curb market there was considerable activity today. Opex, which has long been a feature of this section of the exchange, was not as active today and a block of 500 shares sold at 37 cents, seller 60 days. A little spurt of activity was shown in Ulntah Treasure Hill. The following blocks were sold: 1,000 shares at 10 cents, 500 shares at 10 cents, buyer 60 days. McDonald Ely was disposed of in a block of 500 shares at 40 cents and 1,500 shares at 39 cents.

President Dick Tells of Promotion for Mining Man, and Conditions at Mine in Beaver County.

According to President John M. Dick of the Majestic Mines company in Beaver county, A. D. Moffat will not leave the employment of the company. Mr. Dick is now in Boston, just having returned from a trip to the property. Relative to the work now being done by this company the Boston Financial news has the following

ton Financial news has the following to say:

Mr. Dick says the big electric pump which is installed at the 500-foot level of the Harrington-Hickory mine was started in his presence Saturday, Dec. 11, and that it took just seven minutes to send every drop of water in the mine at this level to the surface. This was a very gratifying surprise, for while Manager Moffat did not anticipate any trouble from the water, it was expected that it would take some time to handle it. It is, of course, anticipated that as the shaft goes down some water will be encountered, but it is now certain that the stationary pump, which will handle 400 gallons a minute, will have to be in operation only a small portion of each day in order to keep the shaft clear.

The sinking pump will handle the water for the next 300 feet and Monday, Dec. 13, the shaft was started down. Three shifts are now at work and Manager Moffat expects to make a record in sinking the shaft. Stations will be cut each hundred feet down and the shaft will be sunk 500 feet, making a total depth of 1,000 feet.

President Dick says a winze will be started down into the ore body at the bottom of the incline shaft as the handling of the water now makes this possible.

He also states that the vein encountered in the drift from the bottom of

ing of the water now makes this possible.

He also states that the vein encountered in the drift from the bottom of the vertical to the bottom of the incline shaft, is now four feet wide and is a full breast of ore that assays about 45 per cent lead and 40 ounces silver. The vein of the strike made when cutting the station for the pump is showing up better as work progresses. Indications are that all of these ore bodies on the 500-foot level just above the water level will be found concentrated and richer below and Mr. Moffat is pushing the shaft down with all speed with a view of blocking out the ore and preparing for stoping.

WILL REMAIN.

WILL REMAIN.

Manager A. D. Moffat, to whom the credit is largely due for the opening up of the Harrington-Hickory mine, has not accepted the position as general superintendent of the South Utah Mines company as was stated a few days ago. This position was offered to him but Mr. Moffat believes that the Majestic company's Harrington mine is to soon open up into a large producer and he desires to bring this about under his direction.

desires to bring this about under his direction.

Mr. Victor Carlson, who has been foreman under Mr. Moffat for the past 13 months, who, it was reported, was also going with the South Utah Mines company, will also remain with the Majestic company. President Dick states that the directors have elected Mr. Moffat as general manager and superintendent and Mr. Carlson as mine foreman under Mr. Moffat for the coming year. He also states that there is no intention at present of calling any assessment on the stock of the company, as all the new machinery is paid for and ample funds are provided for the work now planned by Mr. Moffat.

SATISFIED WITH MILL.

WUCH GOLD IN JARBRIDGE CAMP

W. A. Stevens, a mining engineer and operator of San Francisco is in the city from Jarbridge, the new gold campin the Sagebrush state. This camp came into prominence last August when a rich strike was made at the Bourne mine. Since then many other rich places have been opened up. The early snow and the extreme ruggedness of the country have discouraged many prospectors making the trip. Mr. Stevens has taken up a number of claims in the district and is here making arrangements for supplies to be shipped to the property.

The district Mr. Stevens says is five miles long and about two miles wide and that the area is probably greater than that. Six operators in the district already have excellent showings. The appearance of tellurium and the black sulphides of silver in the ore Mr. Stevens declares argues better than asything for the permanency of the ore bodies. Mr. Stevens is accompanied by Dan Greenvelt. (Special to The News.)
Fay, Nev., Dec. 29.—In spite of unfavorable weather which caused a great deal of trouble with broken pipes and valves, the Horseshoe mill has just completed a short run on ore from the Buck and Snow Flake mines, with results which are very satisfactory to the management. Some repairs and alterations will be made before the mill resumes operations about Jan. 10. In the mean time shipments will continue from the Buck, Snow Flake and Drake mines.

BIG FIRE AT COPPER JACK.

BIG FIRE AT COPPER JACK.

Considerable delay has been caused, in operations at the Copper Jack property at Tintic on account of a fire which occurred last week. It is said that Prof. J. H. Weber and his men were away from the camp at the time the fire started and they returned to find their cabin containing all their clothing and a supply of goods for the winter completely destroyed. Everything was burned and it is said the only thing left was the clothes each man wore. It has been necessary to repurchase the supplies and clothing.

The machinery for the drills which will be used to prospect the property has arrived and is now being set up. In the meantime a new cabin is being erected. Mr. Stevens is accompanover their private wire this afternoon:

ANOTHER BROKERAGE HOUSE. ANOTHER BROKERAGE HOUSE.

T. G. Clegg of Blackfoot, Idaho, brother of State Representative Brigham Clegg, is in town, and expects to locate here permanently. Mr. Clegg represents three incorporated mining companies, whose property is situated near Tecoma, Nevada. The Iron Mask and Mineral Mountain are their principal groups. Some good ore has already been shipped from these and adjoining properties, and it is thought the summer of 1910 will not pass without quite a perceptible boom in that section, Mr. Clegg expects to organize the T. G. Clegg & Comprany, brokers, and will probably have offices in the Boston block.

STILL SINKING FOR OIL.

Operations in Juab County Are Being Pushed to Completion.

But little news has come of late from Juab county, the scene of confrom Juab county, the scene of considerable activity some months ago in the way of explorations for oil. So little has been said of late concerning that quarter that most people think oil men have abandoned it entirely and gone in search of pastures new. But such is not the case.

Yesterday F. W. Dunn, a California expert, said that people, backed by the San Pedro railroad, are still hamering away at the semi-pock formamering away at the semi-rock forma-tion found at depth. They now have at-

tained a depth of some 1,700 feet, and are still going down.

The well driven near the Juab station was put down 960 feet. Although many good indications were encountered on the way down, the salt water and the like the crushing of some of the pipe, and the breaking of machinery put a stop to the driving before success attended the effort.

Still the indications throughout the region are so pronounced in favor of subterranean oil pools located somewhere in the vicinity that every experienced oil man who goes into the Juab valley is convinced that some day the district will record the breaking into a gusher, or pool.

Recently a California oil wizard, who uses the three-cornered stick as in locating water, went over the country and advised where to put down a hole. It is reported that his instructions are now being followed out, and though people are slow in believing in such tricks, it is hoped by all that he may hand his backers a pleasant surprise by a successful recommendation.

CONCENTRATES.

Manager George H. Dern of the Con-solidated Mercur and Boston Sunshine properties has returned to Mercur. He says that the cold weather still con-tinues to tie things up at the plants and they are now thereteen threatened with a

Manager M. J. McGill of the New York Bonanza at Park City was down from the mine yesterday with some fine looking samples of highly mineralized limestone found in the drift off the 1,000 foot level. The drift is in about 85 feet. It is expected that the vein which is being sought should be found about 110 feet from the shaft. As the drift is now making five feet a day some startling developments should be made in the next week or 10 days. 10 days.

Two powerful searchlights have been installed at the pit of the Nevada Consolidated Copper company at Mineral Flat, Nevada. One of the lights is of 5,000 candle power and the other is of 10,000. The company has also installed an electric device that will thaw out 500 feet of pipe in 20 minutes.

The stock of the South Utah Mines and Smelters, which is a reorganization of the Newhouse Mines and Smelters, has been listed on the New York curb. It is said that the company will start up with \$300,000 in the treasury and no debts.

According to W. A. Ray, who has just returned from the Rye Patch Consolidated mining property in Humboldt, there is from eight to 15 feet more of work to be done in the lower tunnel at the property before the vein will be reached under the old Borland stope.

E. W. Hulse & Co., of Ely have secured a membership on the local stock exchange. The company secured the seat of T. R. Kelly. The company has opened up offices in the Shubert theater building.

PRICES UPWARD, **CLOSING STRONG**

New York, Dec. 29 .- Prices of stocks moved briskly upward at the opening today on a large volume of business Gains were quite uniform and widely distributed and ran to a point in Rock Island, Chicago Great Western, Nation-al Railways of Mexico first and second preferred and American Smelting and to large fractions in Southern Pacific, Can-adian Pacific, Reading and Consolidated Gas.

preferred and American Smelting and to large fractions in Southern Pacific, Canadian Pacific, Reading and Consolidated Gas.

The undertone of the market was in the only display of interest was in a few of the metal stocks and a number of specialities. Lake Erie & Western preferred, National Railways of Mexico first preferred, Consolidated Gas and Chicago Great Western preferred rose 2, and Pittsburg Coal preferred 1%, National Lead 1½ and Amalgamated Copper and Illinois Central 1.

Stocks of lesser importance kept coming forward but the general list was little affected. Western Maryland Certificates rose 2, Union Pacific and Wabash preferred 1%, and Chesapeake & Ohio, Canadian Pacific, Wabash, St. Louis & San Francisco second preferred 1% and Chesapeake & Ohio, Canadian Pacific, Wabash, St. Louis & San Francisco second preferred fell 2 and the common lost its advance. Bonds were firm.

Trading became more active and broader, the demand being quite keen for many of the standard railroad stocks. The Harriman stocks were conspleuously strong on their favorable earnings. Union Pacific rose 2, the preferred 1¼, St. Paul 1½, Wheeling & Lake Erie first preferred 1¼ and Southern Pacific, Chicago & Alton, Wisconsin Central, Utah Copper, American Sugar, American Linseed Oil preferred and Laclede Gas 1.

Some stocks were affected by profittaking sales, but the market otherwise was strong, high prices for the day being made by some of the leaders. Rock Island returned to its early high level and the preferred made up its 2-point loss and a point and there were also gains of 2½ in Tennessee Copper and 1 in Louisville & Nashville and Toledo, St. Louis & Western stocks. Hocking Coal fell a point.

The market closed strong. The market gained in animation and variety. Wabash moved up 1½, Wabash preferred and Canadian Pacific 1½, Texas & Pacific 1%, Chesapeake & Ohio and Amalgamated Copper 1½ and Erle, Ontarlo & Western, Kansas City Southern, American Locomotive and Railway Stel Spring, 1. American Express sold at an advance of

WOOL.

ST. LOUIS.

St. Louis, Dec. 29.—Wool, unchanged. Territory and western mediums, 24@28; fine mediums, 21@25; fine, 12@20. BOSTON.

BOSTON.

Boston, Dec. 28.—The demand for all classes of wool on the local market continued unusually brisk for this season of the year. Inquiry runs through all grades and comes from both clothing and combing customers.

Quarterblood fleeces are in particular demand, both eastern and territory. Values held steady in spite of the short supply. Bidding for the new clip is in full swing in the west, especially in Utah, Wyoming and eastern Montana. Scoured values:
Texas, fine, 12 months, 78,676; fine, 6 to 8 months, 88,70; fine fall, 90,662.
California, northern, 68,670; middle county, 62,665; fall free, 50,522.
Oregon, eastern No. 1 staple, 75,6678; eastern clothing, 70,672; valley No. 1,57,658.
Territory, fine stable, 77,679; fine meaning the stable of the season of the stable of the season of the season

57@58.
Territory, fine staple, 77@50; fine medium staple, 70@72; fine clothing, 70@72; fine medium clothing, 65@68; half-blood, 73@76; three-eighths blood, 65@70; one-quarterblood, 67@68.
Pulled: Extra, 72@75; fine A, 68@70; A supers, 60@65.

PRODUCE.

CHICAGO.

CHICAGO.

Chicago, Dec. 29.—Liberal receipts in the northwest offset the effect of firm cables and caused considerable weakness in the wheat market here today. Despite the congested freight situation in the sorthwest arrivals of wheat today at Minneapolis and Duluth were 313 cars compared with 268 cars for the corresponding day a year ago. Prices at the opening were unchanged to ½ higher, with December at 1.18 and May at 1.10% to 1.11%. Local longs were inclined to take profits and December soon sold off to 1.18. At the same time the May option declined to 1.10%.

Constant increase in local stocks slack demand for the cash grain and the weakness of wheat prompted free selling of corn. The December delivery showed the greatest weakness. May opened unchanged at 66½ sold at 66½ % and then declined to 85%.

Oats were bearishly affected although the selling pressure was not pronounced. May opened unchanged at 66½ and sold off to 45½ %.

Provisions responded only feebly to unusually light receipts of live hogs throughout the west, prices at the start being 5c. lower to 2½c. higher compared with the previous close.

Wheat—The market rallied again late in the session on covering by shorts, the distant deliveries being especially firm. May advanced to 1.11½, the close was firm with May at \$40% at 1.11%.

Corn—The market regained all of the lost ground in the final hour mainly in sympathy with the advance in wheat. May advanced to 66%. The close was firm with May up ¼ at 68%.

Corn—Dec., 63%; Jan., 62; May, 65%; July, 85%.

Onts—Dec., 41; May, 45%; July, 41½; Sept., 97%.

Corn—Dec., 63%; Jan., 62; May, 65%; July, 85%.

Onts—Dec., 44; May, 45%; July, 21, 21, 22.

Lard—Dec., 12.50; Jan., 12.27½; May, 11.87½; July, 11.82½@11.85.
Ribs—Jan., 11.32½; May, 11.35; July, 11.32½@11.35.
Rye—Cash, 79½@50; May, 80@81.
Barley—Cash, 53@72.
Timothy—March, 2.95@4.00.
Clover—March, 15.00.

BUTTER AND EGGS. Chicago, Dec. 22.—Butter—Steady. Creameries, 27@36; dairies, 25@30. Eggs—Firm, at mark, cases included, 21½ @23½; receipts, 4,222; firsts, 32; prime first, 35. Cheese—Steady. Daisies, 12½@%; Twins, 16%4; Young Americas, 16½; Long Horns, 16%4; Young Americas, 16½;

SUGAR AND COFFEE. New York, Dec. 29.—Raw sugar, steady. Muscovado, .89 test, 2.52; centrifugal. .96 test, 4.62; molasses sugar, .80 test, 3.27. Refined-Quiet, Crushed, 5.65; granulated, 4.95; powdered, 5.05. Coffee-Spot, steady; No. 7 Rio, 8%; No. 4 Santos, 9.

JAIL DELIVERY IN **BINGHAM CANYON**

Prisoners Liberated at Early Morning Hour-Discovered When Rounds Were Made Later.

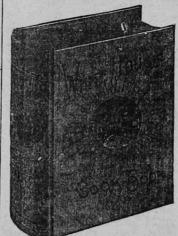

An assault was made on the jail at Bingham in the early hours this morning and two Austrians who had been arrested last Sunday for being connected in an assault on three Finns, Saturday night were given their freedom. The news of this act of defiance to the law news of this act of defiance to the law came to light this morning when the officers went to the jail to examine the prisoners. News of the outbreak was telephoned into Salt Lake this afternoon and Sheriff Sharp has taken measures to locate and capture the prisoners, as well as those concerned in the jail delivery, who are thought to be men living at the same boarding house as the prisoners.

to be men living at the same boarding house as the prisoners. The two prisoners who made their escape were arrested at the time one of the three Finns was shot in the abdomen Saturday night. They were mixed up in the quarrel but Marshal Grant said that the man who did the shooting had not been found. In addition to locating him the officers have now to hunt for his two companions who have a good start of several hours, and also the men who broke into the jail, of whom it is thought there are six or seven. six or seven.

DRAPER COAL SHORTAGE.

Reports from Draper this afternoon state that the coal situation in that neighborhood is somewhat better than it has been, but there is still a shortage. Although some coal is coming in
there is not near enough to supply the
demand and the outlook is not very
bright if the present cold snap continues any length of time.
